

Internship Work Plan

Name: Stephanus Sylvanus

Position: Freelance Software Developer (Intern)

Supervisor: Leonard Shivute (Senior Software Developer at Standard Bank)

Internship Duration: 3 months

Projects:

1. Online Shop Website
 2. Loaning Business Website
-

Objectives

- Develop and complete website interfaces systematically.
 - Demonstrate progress by submitting completed interface sections for review.
 - Ensure responsiveness, usability, and functionality.
 - Gather feedback and iterate based on supervisor's input.
-

Work Breakdown Structure (WBS)

Phase 1: Planning & Setup (Week 1)

- Confirm project requirements and expectations with the supervisor.
 - Set up development environments for both projects.
 - Create a task board (Trello/Jira/Notion) to track progress.
 - Define the order of interface completion for each website.
-

Phase 2: Development & Review (Weeks 2–8)

Each interface will be developed in the following cycle:

1. **Design & Wireframing** – Sketch out the interface layout.
2. **Development** – Implement the UI using the necessary tech stack.
3. **Internal Testing** – Ensure responsiveness and basic functionality.

4. **Submission for Review** – Present to the supervisor for feedback.
5. **Revisions & Finalization** – Implement requested changes before moving forward.

Website 1: Online Shop

1. Homepage
2. Product Listing & Search
3. Product Details Page
4. Shopping Cart & Checkout
5. User Dashboard (Orders, Profile, Payment Methods)

Website 2: Loaning Business

1. Homepage
2. Loan Application Form
3. User Dashboard (Loan Status, Payment History)
4. Admin Panel (Loan Management, Approvals)
5. Notifications & Communication System

Phase 3: Testing & Deployment (Weeks 9–12)

- Conduct thorough testing (UI/UX, functionality, responsiveness).
- Address bugs and refine the design.
- Deploy the final versions of the interfaces.

Progress Tracking & Reporting

- Weekly check-ins with the supervisor.
- Demonstrations of completed interfaces.
- Written progress updates.
- Adjustments based on feedback.
